

Reporte de comparacion y cumplimiento del framework

Generado: 2026-04-19 01:40 UTC

Identificacion de la corrida

Audit run: audit-20260419T014049Z-15e06920

Objeto auditado: ../runtime-orchestrator/output/motor_017_render_job_rp-5dd87342/compiled.pdf

Hash del PDF auditado: 1dc910665c6431b4bfe0d8e8b431cccd95d145adf0e284c0e07bbb7bf090169d

Compliance gate: fail

Quality gate: fail

Accion recomendada: Revise blocked phase violations before quality polishing. Finding distribution: {'high': 32}.

Lectura ejecutiva

El reporte no pasa el gate normativo ni el gate de calidad. La razon principal no es estilo de redaccion: el auditor detecta claims y rotulos visibles que debilitan la trazabilidad, sugieren validacion/cierre y empujan el texto fuera de los limites Decision-grade autorizados por las fases.

La comparacion uso 9 documentos de Recursos genericos como anclas de calidad, no como ley normativa. Esas referencias calibran densidad, metodo, estructura, tratamiento financiero/regulatorio y madurez de recomendaciones.

Resultado normativo

Distribucion de severidad: {'high': 32}

Fase	Nombre	Veredicto	Severidad
phase1	Phase 1 - Public Data Engine	non_compliant	{'high': 8}
phase3	3A - Scope, Primary Material Unit, and MVP Scope of Phase 3	non_compliant	{'high': 8}
phase4	4A - Constitution of the Verification Bridge	non_compliant	{'high': 8}
phase0	Phase 0 - Operational Truth and Epistemic Governance	non_compliant	{'high': 8}

Brechas comparativas contra referencias

Dimension	Severidad	Brecha	Mejora dirigida
-----------	-----------	--------	-----------------

methodological_explicitness	high	The report is thinner than reference anchors for methodological_explicitness; local signal is 0% of the dimension-specific reference anchor (74983.pdf, Assessing-and-Measuring-the-Performance-of-Energy-Efficiency-Projects.pdf, P176829-f9622d64-7bc7-46fa-bd45-b7cb4c26fe46.pdf). This is a quality gap, not a phase violation.	Make assumptions, data sources, proxy limits, and method steps explicit.
structure_quality	medium	The report is thinner than reference anchors for structure_quality; local signal is 72% of the dimension-specific reference anchor (74983.pdf, Assessing-and-Measuring-the-Performance-of-Energy-Efficiency-Projects.pdf, 73509.pdf). This is a quality gap, not a phase violation.	Improve sectioning so findings, methods, evidence, and recommendations are easy to audit.
recommendation_maturity	high	The report is thinner than reference anchors for recommendation_maturity; local signal is 0% of the dimension-specific reference anchor (74983.pdf, sustainable-buildings-finance-reference-guide.pdf, 73509.pdf). This is a quality gap, not a phase violation.	Tie recommendations to prerequisites, owners, sequencing, and verification conditions.

Perfil de anclas usadas

Documento	Fuente en	Usar como
2022 Better Plants Progress Update_0.pdf	structure_quality, financial_seriousness, evidence_discussion_depth, technical_density	report structure anchor, financial analysis anchor, evidence discussion anchor, technical density anchor
73509.pdf	evidence_discussion_depth, structure_quality, financial_seriousness, regulatory_seriousness	evidence discussion anchor, report structure anchor, financial analysis anchor, regulatory seriousness anchor

74983.pdf	evidence_discussion_depth, structure_quality, financial_seriousness, methodological_explicitness	evidence discussion anchor, report structure anchor, financial analysis anchor, methodology and assumptions anchor
Assessing-and-Measuring-the- Performance-of-Energy- Efficiency-Projects.pdf	technical_density, financial_seriousness, structure_quality, senior_report_feel	technical density anchor, financial analysis anchor, report structure anchor, senior-report quality anchor
IPMVP-2012-I.pdf	structure_quality, evidence_discussion_depth, technical_density, senior_report_feel	report structure anchor, evidence discussion anchor, technical density anchor, senior-report quality anchor
LBNL-50939.pdf	financial_seriousness, evidence_discussion_depth, structure_quality, technical_density	financial analysis anchor, evidence discussion anchor, report structure anchor, technical density anchor
P176829-f9622d64-7bc7-46fa- bd45-b7cb4c26fe46-2.pdf	structure_quality, financial_seriousness, evidence_discussion_depth, technical_density	report structure anchor, financial analysis anchor, evidence discussion anchor, technical density anchor
P176829-f9622d64-7bc7-46fa- bd45-b7cb4c26fe46.pdf	structure_quality, financial_seriousness, evidence_discussion_depth, technical_density	report structure anchor, financial analysis anchor, evidence discussion anchor, technical density anchor
sustainable-buildings-finance- reference-guide.pdf	structure_quality, financial_seriousness, market_comparison_sharpness, regulatory_seriousness	report structure anchor, financial analysis anchor, market comparison anchor, regulatory seriousness anchor

Scorecard

Dimension	Score	Prioridad	Racional
phase0_epistemic_compliance	0	critical	phase0 is non_compliant; findings by severity: high: 8.
phase1_scope_compliance	0	critical	phase1 is non_compliant; findings by severity: high: 8.
phase3_reporting_compliance	0	critical	phase3 is non_compliant; findings by severity: high: 8.
phase4_upgrade_compliance	0	critical	phase4 is non_compliant; findings by severity: high: 8.
technical_density	90	low	No material reference-anchor gap detected for this dimension.

methodological_rigor	55	high	The report is thinner than reference anchors for methodological_explicitness; local signal is 0% of the dimension-specific reference anchor (74983.pdf, Assessing-and-Measuring-the-Performance-of-Energy-Efficiency-Projects.pdf, P176829-f9622d64-7bc7-46fa-bd45-b7cb4c26fe46.pdf). This is a quality gap, not a phase violation.
uncertainty_handling	90	low	No material reference-anchor gap detected for this dimension.
financial_seriousness	90	low	No material reference-anchor gap detected for this dimension.
regulatory_seriousness	90	low	No material reference-anchor gap detected for this dimension.
market_comparison_sharpness	90	low	No material reference-anchor gap detected for this dimension.
senior_report_quality	90	low	No material reference-anchor gap detected for this dimension.
traceability_clarity	20	high	High-stakes evidence coverage is 20%.
validation_honesty	0	high	Measures whether validation and verification language stays within support.

Evidencia representativa de hallazgos

- phase1 / high: 1 identified Total Revenue (most recent annual): \$766.8M
- phase1 / high: 2022: \$725.7M 2023: \$738.2M 2023: \$738.2M 2024: \$766.8M 2024: \$766.8M 2025: \$766.8M
- phase1 / high: \$766.8M annual revenue confirms operational scale.
- phase1 / high: Total debt \$608.6M vs assets \$4.47B (LTV approx.
- phase1 / high: Phase Contracts Validated: 5
- phase1 / high: Discovery Sources Validated: 2
- phase1 / high: Analista: Autonomous Decision System v2.0 Version: 2.0.0 Estado: APPROVED
- phase1 / high: 2025-12-31 DATOS VERIFICADOS – SEC EDGAR + NYC Open Data
- phase3 / high: 1 identified Total Revenue (most recent annual): \$766.8M
- phase3 / high: 2022: \$725.7M 2023: \$738.2M 2023: \$738.2M 2024: \$766.8M 2024: \$766.8M 2025: \$766.8M

Paquete de revision

Revision batch: revision-8212823b3e03
Secciones con fixes: 9

Seccion	Accion	Instruccion
1. Revenue Scale:	add_traceability	Attach a specific source, table, citation, or upstream support note; otherwise soften or remove the claim.
2. Leverage:	add_traceability	Attach a specific source, table, citation, or upstream support note; otherwise soften or remove the claim.
Coverage Gaps:	add_traceability	Attach a specific source, table, citation, or upstream support note; otherwise soften or remove the claim.
Discovery Sources Validated: 2	relocate	Rename or relocate the section so it does not imply verification, certification, or compliance closure unless the phase contract authorizes it.
GLOBAL_REFERENCE_QUALITY	add_traceability	Make assumptions, data sources, proxy limits, and method steps explicit.
HISTORICAL REVENUE TREND	add_traceability	Attach a specific source, table, citation, or upstream support note; otherwise soften or remove the claim.
Most Recent 10-K Filing:	soften	Replace the callout with bounded status language such as 'public-data support only', 'source data present', or 'requires validation'.
Phase Contracts Validated: 5	relocate	Rename or relocate the section so it does not imply verification, certification, or compliance closure unless the phase contract authorizes it.
York City	soften	Replace the callout with bounded status language such as 'public-data support only', 'source data present', or 'requires validation'.

Nota de rol

Las fases cargadas son el contrato normativo. Las referencias son anclas comparativas de calidad y no generan violaciones por si mismas. El PDF auditado es el objeto bajo revision.
